Trouble is feared when the whole price of Italians is put to work. Hungeds of honest laborers, who never oted anything but the Democratic licket, are idle in Long Island City, their homes have been taxed and their title families have suffered to raise the 1,500,000 which is to be expended under a act of the Legislature for improving the streets.

an act of the Legislature for improving the streets.

They have been looking forward all Winter to the opening of Spring and to this opportunity for work. They now flad that they are to be set aside and men who do not pay taxes or buy food or clothing at their stores or contribute in any way to the welfare of the place, will receive all the benefits from the work that do not accrue to John C. Sheehan, the Tammany Hall politician and the ally and friend of Mayor Sanford, of Long Island City.

Work on the Harris avenue sewer was begun about a month ago. About sixty men have been employed, most of them being Italians. The superintendent of the work for John C. Sheehan is A. Mc-Millan, and the foremen under him are

Jake O'Toole and Lawrence Sullivan. The Italians were employed after the usual padrone methods through Antonio Lappa, of Hester and Mulberry streets.

Shantles of rough boards are being crected in the open lots, and each man who is employed will be required, beside the payment he makes to the patfrone who employs him, to pay 51 a month for board in the shanty and 51 a month for board in the shanty and 51 a month for shanty rent. The men will receive, it is said, \$1.10 a day. The legal rate for procuring a man employment is \$4, but "The Evening World" has already demonstrated that as much as \$15 and \$100 is often paid to the padrones for a post which does not yield more than \$1.40 a day to the laborer.
